Wilson Sauthoff (he/him)

Ph.D. Candidate, Colorado School of Mines, Hydrologic Sciences & Engineering Program

---

Contact Information	Department of Geophysics Colorado School of Mines 1500 Illinois St. Golden, CO 80401 USA	(720) 500-2969 sauthoff@mines.edu https://wsauthoff.github.io https://glaciology.mines.edu

Education

Hydrology Ph.D. (in progress, expected August 2026)
Data Science M.Sc., 2025
Advisor: Dr. Matthew Siegfried
Colorado School of Mines, (8/2020–Present)

Ocean Sciences M.Sc., 2016
Advisors: Drs. Christina Ravelo & Matthew McCarthy
University of California Santa Cruz, (9/2013–9/2016)

Environmental Science and Management B.Sc., Oceanography minor, 2013
Advisor: Dr. Tessa Hill
University of California Davis, (9/2010–6/2013)

Technical Proficiencies

Scientific Python (Pandas, Numpy, Scipy, Matplotlib, Xarray); Image processing (scikit-image); Machine Learning (scikit-learn); Git (GitHub, GitLab); LaTeX (Overleaf), command line

Professional Experience

Lockheed Martin Space Littleton, Colorado
Machine Learning Operations (MLOps) Engineering Intern, Validation of ML models for climate intelligence products; Continuous integration and continuous delivery (CI/CD) of product updates to meet customer needs, (5/2023–present)

National Science Foundation Office of Polar Programs Alexandria, Virginia
Science Assistant, Facilitated merit-based review of scientific proposals for funding consideration; Performed proposal and award data analysis to assess trends in metrics including institution parameters, proposing researcher demographics, etc. to achieve portfolio balance and broader impacts; Wrote internal documentation surrounding funding decisions; Project management of special initiatives to increase stakeholder engagement; Executive Secretary to Executive Management Board of cross-agency management partners of the U.S. Antarctic Program, (3/2018–8/2020)

Pacific Architects & Engineers McMurdo Station, Antarctica
Various roles, Coordinated site assessments, remediation, monitoring, and training activities at primary logistical hub and remote field camps; Ensured compliance with regulatory policies pertaining to environmental protection and waste management observing the Antarctic Treaty; Collected and analyzed environmental samples; Maintained GIS and GPS records; Authored technical reports; Ensured timely, safe, and effective passenger and courier movements at remote research station and airfields; Dispatched passenger and crew ground movements, (7/2017–2/2018)

Monterey Bay Aquarium Research Institute Moss Landing, California

Ocean Chemistry Intern, Researched deep-sea oil leaks using laser Raman spectroscopy to model environmental fate of oil pollution and methane seeps; Coded data reduction program; Mobilized materials for fieldwork, (6-9/2013)

Sacramento Air Quality Management District Sacramento, California

Mobile Sources Intern, Implemented incentive program oversight; Analyzed air quality surveys; Prepared technical documents including grant final reports; Organized public outreach efforts, (6/2012-6/2013)

Field Experience

Mines Geophysics Field Camp Steamboat Springs, CO

Student, Transient electromagnetics, ground-penetrating radar, distributed acoustic sensing, near-surface seismic, reflection seismic, gravity, and GPS methods, (5/2024)

In prep and submitted Publications

Gardner, C., Venturelli, R., **Sauthoff, W.**, & Siegfried, M. (in prep) Subglacial weathering in East and West Antarctica.

Sauthoff, W., Siegfried, M., Abrahams, E., Horne, A., & Smith, B. (in prep) Tens of New Candidates of Active Subglacial Lakes Across Antarctica.

Smith, B., Sutterley, T., Fricker, H., Padman, L., Siegfried, M., Black, T., Felikson, D., Freer, B., Gibbons, A., Jelley, B., King, M., Medley, B., Morlighem, M., Sadlik, C., & **Sauthoff, W.** (submitted) ICESat-2 land ice products resolve Greenland and Antarctic ice-sheet height changes on seasonal to multiyear time scales. *Journal of Glaciology.*

Snow, T., Holdgraf, C., **Sauthoff, W.**, Scheick, J., Abrahams, E., Millstein, J., Bhangar, S., Boettiger, C., Colliander, J., Lopez Espinosa, L. A., Holmes, E. E., Kennedy, J. H., Lowndes, J. S., Mandel, A. I., Panda, Y., Perez, F., Swinski, J.-P., Teucher, A., Siegfried, M. R. (submitted) A path to better science through co-creation and open infrastructure. *AGU Perspectives of Earth and Space Scientists.*

Selected Conference Presentations and Service	Student convener, Open Source Geospatial Workflows in the Cloud: Tools and Techniques for Data Access, Analysis, Visualization, Storytelling, and Sharing in the Python and Jupyter ecosystem, 2025 AGU Fall Meeting, New Orleans, La. (12/2025)
	Primary convener, Accelerating Scientific Discovery and Interdisciplinary Collaboration through Cloud Computing Hubs and Tools, 2024 AGU Fall Meeting Session U001, Washington, D.C. (12/2024)
	Evolving outlines of Antarctic active subglacial lakes using an image processing algorithm on gridded altimetry data (talk), 2024 IEEE International Geoscience and Remote Sensing Symposium Athens, Greece (7/2024)
	Primary convener, Advancing Cryospheric Research and Community Engagement Through Open-Science Tools, Data, and Collaboration, AGU Fall Meeting, San Francisco, Calif. (12/2023)
	Altimetry-based, surface-deformation delineation algorithm reveals tens of new active subglacial lake candidates across Antarctica (talk), 2023 AGU Fall Meeting Session C14A-04, San Francisco, Calif. (12/2023)
	Surface-deformation delineation algorithm reveals subglacial lake candidates and underestimates of subglacial volume fluxes (poster), 2023 IGS Edges of Glaciology, Limerick, Ireland (7/2023)
	CryoSat-2/ICESat-2 integrated time series and comparison of shoreline evolution in Antarctic active subglacial lakes (poster), 2022 AGU Fall Meeting Session C008, Chicago, Ill. (12/2022)
	ICESat-2-extended time series of subglacial volume fluxes using time-variable shorelines of Antarctic active subglacial lakes (talk), Ice, Cloud and Land Elevation Satellite-2 Science Symposium 2022, Austin, Tex. (10/2022)
	Variable shorelines of Antarctic active subglacial lakes reveal large underestimates of subglacial volume fluxes (poster), 2022 GSA Connects Session T107, Denver, Colo. (10/2022) https://doi.org/10.1130/abs/2022AM-383750
	Refined time series of Antarctic active subglacial lakes: New multimission volume flux estimates using evolving shorelines (talk), 2022 WAIS Workshop, Estes Park, Colo. (9/2022)
	Antarctic active subglacial lake shoreline migration and novel features of ice height anomaly (talk), AGU Frontiers in Hydrology Meeting, San Juan, P.R. (6/2022)
	Antarctic active subglacial lake shoreline migration and novel features of ice height anomaly (talk), Spring 2022 Ice, Cloud and land Elevation Satellite-2 Science Team Meeting, Boulder, Colo. (5/2022)
	Observing connected subglacial lake drainage at Slessor Glacier, East Antarctica, using ICESat-2 laser altimetry (poster), 2021 WAIS Workshop, Sterling, Va. (9/2021)

Workshop Participation

Participant, Joint IAPSO/IACS Commission on Ice-Ocean Interactions Online workshop, virtual (10/2022)

Participant, CLIVAR Sources, Pathways and ImpaCts of frEsh water in northern and soUthern Polar oceans and seas (SPICE UP), virtual (9/2022)

Co-organizer, International Ross Sea Region Collaboration and Coordination Workshop, Scientific Committee on Antarctic Research (SCAR) XIII International Symposium on Antarctic Earth Sciences (ISAES) Conference, Incheon, Korea (7/2019)

NSF Representative, 2019 Next Generation of Polar Researchers Leadership Symposium, Catalina, CA (5/2019)

Awards

Geophysics Field Camp Fee Scholarship, $350, (6/2024)
National Defense Science & Engineering Graduate Fellowship Honorable Mention, (4/2023)
WAIS Workshop Early Career Researcher Travel Grant, $280, (9/2022)
ESIP Request for Machine Learning Tutorials Grant (Project Partner), $5000, (7-12/2022)
Mines Hydrological Science & Engineer Student Leadership Award, $400, (7/2022)
WAIS Workshop Early Career Researcher Travel Grant, $651, (9/2021)
Mines Hydrological Science & Engineering Student Leadership Award, $220 (5/2021)
National Science Foundation Antarctic Service Medal, (03/2017)
University of California Santa Cruz Graduate Student Association Travel Grant, $288, (5/2015)
Myers Oceanographic Trust Grant, $1100, (4/2015)
Friends of Long Marine Lab Grant, $950, (1/2015)
PADI Foundation Grant, $1685, (9/2013)
Provost's Undergraduate Fellowship, $894, (12/2011)

Mentoring

Colorado School of Mines
Anastasia Horne, undergraduate and MSc. researcher, (2023-25)
Mia Jungman, undergraduate researcher, (2023)
Venezia Follingstad, undergraduate researcher, (2022), now Univ. of Oregon graduate student
Kayla Hubbard, MSc student, (2021), now National Science Foundation science assistant

University of California Santa Cruz
Natalia Spritzer, Science Internship Program high school intern, (2015)
Sami Chen, undergraduate lab assistant, (2014-2015), now Ph.D. student at Stanford
Nicolette Chiem, undergraduate CalTeach intern, (2014-2015)
Linda Pineda, undergraduate researcher, (2015-2016)

Teaching Experience

Colorado School of Mines
Teaching Assistant, Applications of Remote Sensing (Geophysics 470/570), 1/2022-5/2022

University of California Santa Cruz
Teaching Assistant
Ecology & Society (Environmental Studies 100L), 1/2016-3/2016
Microbiology (Microbiology & Environmental Toxicology 119), 9/2015-12/2015
Our Changing Planet (Oceans 80B), 9/2014–12/2014, 4/2014–6/2014

University of California Davis
Laboratory Teaching Assistant, Mathematics and Science Teaching Program for biological science laboratory (BIS 2A-C lab), 1/2012–3/2012
Biological Sciences Tutor, Student Academic Success Center, 6/2011–12/2011
Instructor, Biological Sciences supplemental course (BIS 98), 4/2011–6/2011
